Bramare was the dream home of Judy Burley and Andrew Barling, The OTIS Foundation's founder. It was the benefits of living in a tranquil, natural environment whilst receiving treatment that inspired Judy, and consequently Andrew, to donate Bramare to help others facing the challenges of dealing with breast cancer. This stunning, architecturally designed home blends into the surrounding bush landscape through the use of natural materials such as rammed earth, wood and glass. Bramare is a beautiful, open-plan home that features floor to ceiling windows overlooking the beauty of the One Tree Hill National Park. The spacious rooms are designed for comfort and luxury; with a bedroom wing conveniently located at one end of the house, rooms for relaxation in between and an open plan living area that leads to a secluded vegetable patch. It is the perfect place to take time out and simply enjoy the serenity of the surrounding bush.

Located within the Mandurang Valley in Central Victoria, Bramare is nestled on the edge of the State Forest just ten minutes away from the historic city of Bendigo, regional Victoria's cultural hub. Ideally suited to those who are looking to enjoy the sanctuary of nature a short distance from the hustle and bustle of regional city life. Enjoy walks in the surrounding Mandurang Valley and the One Tree Hill National Park.
