The nurturing and restorative properties of the bush inspired the construction of St Jude's which was affectionately named after Judy Burley, who was the inspiration for the OTIS Foundation. St Jude's is a modern, architecturally designed home that mirrors the design of Bramare using non-toxic, rammed earth specifically chosen for its natural temperature control and ability to blend into the landscape. St Jude's features floor to ceiling windows that offer private, unspoilt views of the One Tree Hill National Park.

This purpose built home for two shares a zen-like courtyard which separates it from a sister property named St Hannah's. Guests can enjoy a clever design that incorporates an open plan living space that also manages to feel private and cosy, thanks to the inclusion of an open fire and furniture made with heart from local furniture maker, Jimmy Possum!

St Jude's is nestled within the picturesque Mandurang Valley in a magnificent rural setting on the outskirts of Bendigo in Central Victoria. St Jude's is nestled on the edge of the State Forest just ten minutes away from the historic city of Bendigo, regional Victoria's cultural hub. Ideally suited to those who are looking to enjoy the sanctuary of nature a short distance from the hustle and bustle of regional town life.
