

Support OTIS by
sharing your property

Could you be the next generous property owner to help
The OTIS Foundation establish its newest breast cancer retreat?

The OTIS Foundation proudly offers a national network of retreat accommodation to those dealing with the challenges of breast cancer. Our properties are provided to guests at no cost for the opportunity to relax, regroup and reconnect.

We are actively seeking properties to meet the growing demand to provide the gift of time and space for those in need. By donating your property, you have a unique and rewarding opportunity to help those with breast cancer and their families to take a break.

The majority of OTIS properties are generously donated by individuals who provide access to their holiday home or second property for selected periods throughout the year.

The OTIS Foundation will:

- ▶ Liaise with you to discuss your property and the availability you are able to offer (ideally 12 or more stays per year, each stay of between three to seven nights).
- ▶ Provide a Retreat Registration Form for completion, which documents any conditions you nominate, such as maximum number of guests, pets etc.
- ▶ Prepare a property brochure to provide guests with accommodation details such as bedding configuration, key access details etc.
- ▶ Provide a guest book and information kit for display at your property.
- ▶ Manage the booking process and handle all aspects of guest liaison.
- ▶ Email a weekly report of all upcoming bookings to property owners and cleaners.

Property owners take responsibility for the general maintenance, cleaning and insurance of their property and providing available stays to The OTIS Foundation.

Thoughts from our Property Owners

“ Our holiday home is located in the Snowy Mountains and we rent it out during the winter for skiing. We also go during the summer, but there are many weeks when it is empty and there is not a huge market for rentals. We make it available to OTIS from November to June for guests from Monday to Friday.

The arrangements can suit your needs - for instance you might want to keep weekends or a week during that time for your own use.

OTIS manages all the bookings with great care, liaising with the guests and rental agents. We think it is a great advantage to have our house occupied most weeks of the year. **”**

Property Owner –
‘Creekside’ Thredbo, NSW

“ For holiday home owners, OTIS gives an opportunity to be generous to a stranger on a journey with breast cancer at a time when life seems tough. To know that a guest can retreat to a peaceful and beautiful environment is reward in itself. In addition, working with OTIS staff is a heartwarming experience.

Working with a very well run organisation dedicated to delivering kind deeds for those experiencing breast cancer gives owners both assurance and joy. Each time we pick up the phone and hear an OTIS staff member, we feel we are a part of something much bigger than ourselves. **”**
