

We need **YOUR** help
to give families the chance to
take a break from breast cancer

When you donate time at your property as an OTIS Retreat you have a unique and rewarding opportunity to directly help those with breast cancer and their families

Do you, or someone you know, own a property,
holiday accommodation or an Airbnb
that might be suitable as an OTIS Retreat?

By donating time at your property as an OTIS Retreat, you have a unique and rewarding opportunity to directly help those with breast cancer and their families.

The OTIS Foundation is a national charity with a national portfolio of Breast Cancer Retreats. We offer the gift of a break away to support those with a breast cancer diagnosis. Our retreat accommodation is provided at no cost to guests for the opportunity to relax, regroup and reconnect with friends, family or loved ones. We are not government funded and rely on our corporate sponsors and individual donors for financial support and time at their properties nationwide.

You will be supported in the registration process by the OTIS Property & Bookings Manager

Your property is eligible to apply if it is comfortable, secure, well-maintained, no more than 4 hours from a city and set up for couples, small groups or families to relax, reconnect and recharge

You can choose to donate costs associated with linen and cleaning or seek sponsorship

You can choose whether to donate specific dates or select periods each financial year

Your donation includes maintenance and utilities, however large donations of time could mean this is negotiable

Your time is precious so the OTIS Bookings Team manages the booking process and all aspects of guest liaison

You and your property personnel will receive a weekly report of upcoming bookings

You can rest assured that OTIS guests have a long history of being considerate and respectful

Thoughts from our Property Owners

“ *Those who are fortunate in owning beautiful holiday places can also enjoy the privilege of sharing them without risk or worry through the OTIS Foundation. OTIS manages all the bookings with great care, liaising with the guests and rental agents. We think it is a great advantage to have our house occupied most weeks of the year. There is enormous satisfaction in knowing that you are extending a helping hand to someone who is doing it tough and needs a break.* ”

Property Owner – ‘Creekside’ Thredbo, NSW

“ *OTIS gives an opportunity for holiday home owners to be generous to a stranger on a journey with breast cancer at a time when life seems tough. To know that a guest can retreat to a peaceful and beautiful environment is reward in itself. In addition, working with OTIS staff is a heartwarming experience.* ”

Property Owner – ‘Casuarina Cottage & Casuarina Views’, Aldinga Beach, SA
